YOUSSEF ESSAM

CLOUD & DEVOPS ENGINEER

Cairo, Egypt | 01017074958 | yousefessam2067@gmail.com | linkedin.com/in/youssef-essam-b49a11250

PROFESSIONAL SUMMARY

Cloud & DevOps Engineer with a practical backend development background (**Node.js, Express.js, MongoDB, Flutter, .Net**). Specializes in **Linux administration, Docker containerization, AWS cloud infrastructure, Terraform (IaC)**, and **GitHub Actions CI/CD pipelines**. Passionate about automating deployment workflows, ensuring application security, and optimizing high-availability cloud environments.

EDUCATION

Bachelor of Computer Science and Information Technology

Fayoum University

- Grade: B+ (GPA: 3.54 /4)
- Graduation Project Grade: A+ (Horus Tourism Application)

INTERNSHIPS AND COURSES

NTI Training — Cloud & DevOps | *Oct 2026 – Present*

- Developing foundational knowledge of cloud computing and DevOps practices, including Linux, networking, version control, deployment workflows, and automation concepts.
- Learning how development and operations work together to support reliable application delivery. Add the exact tools and modules covered in your NTI track to make this entry more specific.

Bee Interactive — Backend Development Intern | *Aug 2024 – Feb 2025*

- Developed server-side features and APIs using Node.js and Express.js to support mobile application functionality.
- Designed and managed NoSQL data models with MongoDB and Mongoose for efficient data storage and retrieval.
- Applied authentication and security practices using JSON Web Tokens (JWT), user sessions, and bcrypt.
- Collaborated with the team in an office environment to integrate backend services with application features.

Information Technology Institute (ITI) — .NET Framework Online Material | *Apr 2026 – Jun 2026*

- Studied C# and object-oriented programming, LINQ, and asynchronous programming.
- Practiced SQL Server, Entity Framework, database design, CRUD operations, and relationships.
- Explored ASP.NET Core MVC, Web API, Angular, and ES6.

Udemy — Unlock the Power of Material 3 in Flutter: Firebase Chat App | *Apr 2024 – May 2024*

- Built Flutter applications using Dart and Firebase Authentication, Cloud Firestore, and Storage.
- Implemented real-time chat functionality and Firebase push notifications.

Information Technology Institute (ITI) — Mobile Development Using Flutter | *Sep 2022 – Oct 2022*

- Developed Flutter applications with responsive interfaces, multi-screen navigation, forms, and application logic.
- Integrated HTTP APIs and SQLite databases and practiced debugging.

SKILLS

Soft Skills: Communication, Time Management, Critical Thinking, Problem-Solving, Cross-Functional Collaboration (Dev & Ops Integration), Analytical Problem-Solving & Root Cause Analysis, Incident Management & Agility, Adaptability & Continuous Learning, National Telecommunication Institute (NTI) (**Business Communication, Career & Personal Development, Professional & Workplace Skills,** Management **& Workplace Ethics**)

Technical Skills: Git/version control fundamentals, Linux and networking fundamentals, Docker, AWS, and CI/CD, Node.js, Express.js, JavaScript, MongoDB, Mongoose, REST APIs, SQL Server, Entity Framework, C#, ASP.NET Core fundamentals, Flutter, Dart, Firebase, JWT and bcrypt.

Development Tools: Visual Studio Code, Android Studio, IntelliJ IDEA Community, Cisco Packet Tracer, Linux (Ubuntu) & Bash, Git & GitHub, Docker & Docker Compose, AWS Management Console, GitHub Actions (CI/CD), Terraform (Infrastructure as Code)

LANGUAGES

English — B1 (Intermediate) | Arabic — Native

PROJECTS AND CERTIFICATIONS

Horus — Egypt Tourism Application | *Graduation Project*

- Grade: A+.
- Project Scope:
  - User Registration: Create a secure account and reset the password for both the tourist and the tour guide.
  - Tourism Promotion: Listings for attractions, eateries, hotels. - Hotel Booking: Integration with Booking.com or trivago for reservations.
  - Tourism Apps Info: Guide to helpful apps like Uber.
  - Geolocation: GPS for real-time navigation assistance.
  - Tour Guide Arrangement: In-app booking, chat feature with tourist to dealing with him to exploring Archeological areas and accept or reject the order of tourist.
  - Reviews and Ratings: User feedback for improvement.

Firebase Real-Time Chat Application | *Course Project*

- Created a Flutter chat app with Firebase Authentication, Firestore messaging, and push notifications.

Cars Store Application | *Flutter Project*

- Built a mobile application as part of Flutter training.

PERSONAL INFORMATION

Date of Birth: 30/9/2002

Nationality: Egyptian

Military Service: Completed
